**RESPONSE TO RESTRICTION REQUIREMENT**

Sir:

In response to the Restriction Requirement of June 21, 2004, Applicants elect Group III, Claim 13, drawn to a spinal catheter, with traverse. Traversal is on the grounds that a search of the art for one group of claims will necessarily include a search of the art for the other group of claims. It is believed that the burden on the Examiner to examine all claims in a single application is less than the burden on the Applicants/public to prosecute/search more than one application/patent.

This paper affirms the provisional election, with traverse, made by Richard P. Bauer (#31,588) during a telephone conversation with Examiner White on June 14, 2004.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 625-3500. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

  
Attorney for Applicants
